MUSICAL FRIDAY

Musical Theater Masterclasses 16+ - small scale and personal

Acting the song & singing in musical theatre

Do you like singing and acting? Would you like to learn how to combine this two and find out more about musical theatre?

This course is designed for anyone who wishes to learn how to sing and work with a song in musical theatre. Being able to sing is one thing, but being able to bring the story and lyrics to life while portraying a character on stage is another. And it's lots of fun!

During the masterclass you'll learn how to:

- analyse the lyrics of a song to help enhance the storytelling
- learn ways to personalize the song to make the performance unique
- Learn basic acting techniques that will help you build your character and believable performance while singing
- learn the musical theatre singing technique

And of course have lots of fun while working on a piece of a musical theater song!

All singing levels are welcome!

About Dominika

Dominika is a polish singer, actress and director. She studied jazz singing at the Royal Conservatory in The Hague from where she went on to work as a singing and theater teacher at various music and theater schools around the Netherlands.

She's worked on many musical theater productions, some of which she produced and others where she acted. She's a cofounder of Happily Ever After Productions in Amsterdam, a company focused on producing english speaking musical theatre shows with the latest production of Stephen Sondheim Into The Woods.

Dominika is a motivated and experienced teacher that loves teaching at all levels and styles.
